

ROBOTIC TECHNOLOGY & FUTURE

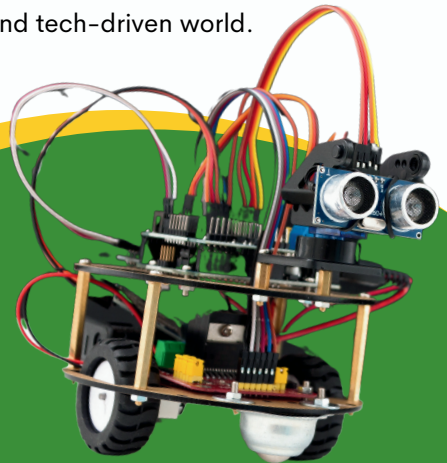

GNR Institutions have introduced robotics technology for students, offering an exciting opportunity to learn new and innovative skills. Through hands-on activities and smart tools, students are now exploring coding, robotics, and problem-solving in a fun and engaging way.

Today, robotics is widely used in education to make learning more interactive and practical. Students

can build and program robots, which helps them understand real-world applications of science and math. It also improves their creativity, teamwork, and logical thinking. This new learning experience sparks curiosity and builds a strong foundation for future success in the digital and tech-driven world.

IIT & NEET Foundation Classes:

Build a strong Base for a Bright Future!

Join our specially designed foundation program for students of **classes 6 to 9**. We focus on strengthening core concepts in Maths, Physics, Chemistry, and Biology. Preparing students for competitive exams like IIT-JEE, NEET, and Olympiads.

KEY FEATURES:

Expert faculty with Proven Track Record and Syllabus is designed as per IIT-JEE mains and advanced, Covers 60–70% IIT syllabus

Special Focus on:

- Mathematics
- Chemistry
- Physics
- Biology

Helps to develop a student's:

- Analytical skills
- Logical thinking skills
- Application skills
- Trains students to get below 500 or 1000 Rank in IIT mains and advanced / NEET exams
- Exams are conducted IIT-JEE mains and advanced exams paper pattern
- Concept-Based Learning Approach

COMPETITIVE EXAM COACHING

- OLYMPIAD
- RUKMAPUR SAINIK SCHOOL
- NAVODAYA
- EKALAVYA RESIDENTIAL MODEL
- GURUKULA

ABOUT OUR INSTITUIONS

At Our School we are dedicated to nurturing young minds with a perfect blend of academics, values, and innovation. We offer quality education from Nursery to X standard with both day and residential options. Our modern teaching methods make learning engaging and effective. The school also provides exclusive IIT Foundation and competitive exam coaching. At Our School, we prepare students to succeed in school and beyond.

SPOKEN ENGLISH SKILLS

Adding a spoken English program in schools helps kids build confidence and communicate better in real-life situations.
